# Poster representing an idea of my topic

The signs that have been put up all around my city.

They are becoming more and more popular, I have seen them around four places already.

# A Man and his Paper

The sign reads, "Please spare some money for a bite to eat and a bed to sleep. Thank you Muchly :)"

The other sign says "Spent all my money on cardboard and marker"

Poem:

1. What has this country become, why do we not see the wrong
2. Small problems matter as well, but even the big problems are not accounted for
3. Banning things uselessly just to show that the city has power
4. People trying to survive is not even an option anymore
5. Human beings, animals, need stability
6. Small problems matter, human beings being affected by a useless ban matters
7. Society chooses to ignore the little and the massive problems that are being faced today
8. Not because they do not see it, but because it has no effect on them
9. If we work as a whole, and unit with wanting the same outcome, a tremendous change will be shown
10. It is our world, let's change it for the better, starting with small problems and working our way up
11. As one we shall change the system, change perspectives and most importantly change the world.
