Hi, Dean;

Yes, a 4.8 is good. Actually, the scores might go down with experience, as you become tougher and wiser.

Some faculty are rewarded for being tough, but that's not very often the case.

Best,

Dr. Harris,

Hello. I received my reviews, and I have a few questions.

I understand the notes, but the scoring is a bit unclear.

What is considered good or acceptable?

My average was 4.8 or so. Is that "ok?" Do the scores improve with experience?

Best,
